Feedback request: Do I sound bad?

Comments

@pitchplease ■ strength observation
Your intonation is quite good.

@lowbreathclub ■ issue observation
Too much blending of words. Enunciate more.

@velvetvox ■ issue observation
The singing sounds mumbled.

@lastnote404 ■ practice advice
Work on enunciation with tongue-twisters.

PeerCoach Supervision Construction

Coaching Targets

Focused QA

Q. How clear are my words?

A. Your words blend together. Aim for clearer consonants.

Overall Feedback

Q. How does my singing sound overall, and how can I improve?

A. Your intonation is quite good, but the words blend together. Practice tongue-twisters slowly, keeping each consonant clear.

Recognition QA

Real-feedback MCQ

Q. Which issue did listeners point out?

A. Unclear words ✓
B. Weak Breath Support
C. Rushed or dragged timing

Synthetic-defect MCQ

Q. What is the clearest problem in this singing?

A. Diction ✓ B. Pitch C. Breath

Q. How does my singing sound overall, and how can I improve?

A. You have a naturally pleasant voice quality, but the delivery comes across a bit under-projected—like you're holding back volume and intensity. Bringing more consistent projection will help your tone carry ...
